EDITORS APPEAL—No gentleman cossessing the least degree of self-respect ould notice the badinage and balderdash of your editorial of yesterday, therefore I leave you to indulge that peculiar propensity to your heart's content, asming that it is the modern style of ournalism when the inconsistencies of editors have been so exposed as to need a screen behind which to hide from pubic gaze. But you and his honor, Mayor Loague, in your midnight efforts to devise a means of arresting public opinion, have again over-stepped the mark and have been guilty of a gross injustice to me in the intimation that I had neglected my duty in not reporting Mr. Farrington's judgment. Now the facts are, that I carried the coupons upon which that judgment was rendered, to the mayor's office the very day they were filed in the court, and I tendered them to Mr. Newsom, and he said the mayor was the party to receive and cancel all coupons. The mayor refused to receive them, and directed the comptroller not to receipt for them or make any entry of them, and said if I left them they were in my custody still. I had carried them there to be cancelled and entered on the books for the city's protection. My duty was done, and I left them there, and they were MR CHARLES HERZOG, senior partner placed in the safe in a box, labelled "igenuine," and when the city settled with Mr. Farrington yesterday the mayor took them out and delivered them to Mr. Newsom for that purpose. Mr. Farrington's judgment was at least three times before the finance committee previous to April last, and I was instructed to take an appeal in the case, and yet, forsooth, you have the statement that it never was reported. If I am to make formal written reports with red tape and large seals of every judgment against the city, I will have no time to defend the suits. But this controversy has gone far beyond any design of mine when I wrote my

paper, the many earnest appeals you are making upon your good citizens to go to work and build cotton factories in your beautiful city. I have had some little beautiful city. I have had some little experience in the manufacture of the as I have resigned my trust, and as some one else is to make the fight in these cases, I do not desire to place my humble judgment or opinion in the city's way, so as to bias the public mind, or that of courts and juries, notwithbetter may you manufacture in Mem-phis.
